

Northern Exposure

SHORTHORN BULL SALE

TAROOM SHOW/GROUNDS

10AM | AUGUST 16 | 2024

*Ronelle Park Slurpie RJS29 - Sold for \$106,000 to Malton Shorthorns 2023 - Current Australian Shorthorn Bull record.
Pictured with Trent Johnstone (TROJON Shorthorns) and Janelle Johnstone (Ronelle Park Shorthorns).*

Extending a warm invitation -

Northern Exposure represents three shorthorn studs from central New South Wales.

Having sold cattle across Queensland through different venues and with many paddock sales over the years, we decided to join forces with the three studs and launch our own sale event.

The bulls we are offering in this sale have been grazing together on an oats crop in Thangool, Queensland. They are naturally conditioned and ready to go straight out to work. Prior to heading to Queensland they were pasture or cropped grazed and supplemented with pellets and hay through dryer periods.

Recent sale successes, where sires purchased from us topped the charts, underscore the benefits of crossing Shorthorn bulls with Bos indicus cattle.

Shorthorn-infused cattle have shown remarkable performance in prime and carcass competitions. If you're looking to improve grading and tap into new beef markets, now is the time to consider introducing Shorthorns. We believe we have the products to support your goals in this venture.

When comparing bulls throughout the catalogue, please consider the birth dates of the bulls, as there is a notable age variation due to differing joining times in the respective programs.

We wish you the best of luck, and are confident your purchases will go on to complement your program and improve market opportunities.

Warm Regards - *Janelle, Lonnie, Nic, Trent, Kimberly and families*

STUD INFO

Southern Cross, often referred to as SXS, is situated east of Coonabarabran in Purlough. Lonnie and Nic Stone have dedicated 20 years to breeding shorthorn cattle, alongside their three children: Lacey, Hooper and Jett. They manage a breeding herd of 100 Shorthorn cows. Lonnie is also well known in cattle circles for his ultrasound work with Southern Cross Scanning, serving cattle herds across the country for over 15 years.

TROJON Shorthorns is situated in Lyndhurst, NSW, where Trent Johnstone, alongside his wife Kimberly and children Havana and Arley, operate a stud and commercial enterprise in the Shorthorn breed. With a lifelong dedication to cattle, Trent is deeply passionate about the breed's remarkable qualities in both seed stock and crossbreeding programs. Managing approximately 400 breeders, he is optimistic about the future and welcomes you to join the journey he and his young family are undertaking.

Ronelle Park Shorthorns is owned by Janelle Johnstone, Trent's mother, in Garland, NSW. This established stud enterprise has thrived for over 40 years, currently overseeing approximately 200 breeders. While Janelle has been involved in various businesses, her primary focus now lies with cattle. She strives to enhance genetic quality for seed stock production using her own bulls and is open to sourcing genetics through purchases, AI, embryo transplants, and venturing into IVF this year.

“ We run all Brahman breeders, as they are a breed that will survive in the dry times and will climb the hills to get a feed. We use roan shorthorn bulls in our crossbreeding program to get the F1 calves. The F1 calves are raised to produce jap ox and the heifers go into the MSA trade market. The F1 calves grow faster and have a good fat coverage. There is a big future in cross breeding with shorthorn cattle to improve any breed. The calves are born small and they grow fast. The first cross out of Brahman cows works very well in our program because we are in a very bad tick area. ”

- Nick Dudarko, Kangarin Brahman at Biloela in Central Queensland

Comment from Queensland client who purchased shorthorn bulls from us in the past -

“ shorthorn x bos indicus weaners have recently returned a 50 cent per kilo premium over our straight bos indiscus. I will be returning as a future bull buyer ”

HOW TO REGISTER with

Follow these easy steps to start bidding:

Visit www.stocklive.com.au using your desktop, laptop, iPad, iPhone or Android device. NO App required.

Select the **bid** icon beside the sale you wish to bid on.

If you're new, select **register**, and complete the form with all your details, **accept sale conditions**, select **create bidder registration**.

You will receive an email from StockLive. Select "**Confirm my bidding account**" to set your password and **accept Bidder Account Terms & Conditions** and Privacy Policy followed by **create my account**.

Congratulations! Your StockLive account has been created and your bid request is pending. You will be notified via email when your request to bid has been approved.

Existing users, follow steps 1 & 2, select login, enter your details followed by the **request to bid** icon beside the sale you wish to bid on and then **accept** the terms.

You will be notified via email when your request to bid has been approved.

On Sale Day, follow steps 1 & 2, select **enter auction** to watch, listen and purchase when the sale is flashing **LIVE**.

Invoicing and delivery will be carried out as per your registration details by the respective Selling Agents.

20 x straws Kingsley Vale Quarterback NIKQ4

We purchased this bull in 2021 & are extremely happy with how he is performing in both Ronelle Park and Southern Cross herds. 13 of the bulls in Northern Exposure sale are sired by him & here is your chance to benefit. Semen will be available to collect on sale day. So bring your tank.

Conqueror Milling Company has been manufacturing high-quality stockfeed and vegetable protein meal for a range of Australian and international markets since 1984.

Our product range includes pellets and licks specially formulated for beef, dairy, sheep, horses, poultry and alpacas, with products available in 20 kg bags, one-tonne 'bulka' bags and in bulk.

**YOUR PARTNERS
IN NUTRITION**

Understanding IGS EPD's

Calving Ease Direct (CE-D): Reported as the percentage of extra unassisted births in 4th calving heifers, relative to the average. CE-D is relative to the direct Calving Ease of the animal. Higher values are more favourable.

Milk: Reported as pounds of weaning weight of progeny from the animals daughters, relative to the average. Predicts the difference in maternal production of daughters relative to milk production and mothering.

Values are relative to the environment of the production system. Low input environments should be very conscious of introducing too much milk due to the increased nutrient requirements that it can place on cows.

Docility: Reported as the percentage of progeny, relative to the average, that will record a score of docile. Higher values are more favourable.

GROWTH EPD'S

Birth Weight: Reported in pounds of birth weight relative to the average. When selecting bulls to use on heifers, breeders should also focus on the Calving Ease EPD as Birthweight is already used in the Calving Ease EPD calculation.

Weaning Weight – Adjusted to 205 Days: Reported in pounds of weaning weight of direct progeny, relative to the average. Higher values are usually more favourable dependant on its relationship with birthweight.

Yearling Weight – Adjusted to 365 Days: Reported in pounds of yearling weight of direct progeny, relative to the average. Higher values are usually more favourable dependant on its relationship with birthweight.

CARCASE EPD'S – ADJUSTED TO 475 DAYS OF AGE.

Carcase Weight: Reported as pounds of Carcase Weight relative to the average. Higher values are usually more favourable, however this is relevant to each producers target market.

Rib Eye Area: Reported as square inches relative to the average. Higher values are usually more favourable.

Fat: Reported as inches of back fat relative to the average. Higher values are usually more favourable, however this requires a balance between adequate doing ability in daughters and carcase fat thresholds for target markets.

Marble Score: Reported as the differences in actual carcase marble scores relative to the average. This is different to IMF% which is used as an indicator trait in Marble Score. Higher values are more favourable.

All Purpose \$Index – Api: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's where \$ Indexes come in. Through well conceived, rigorous mathematical computation, \$ Indexes blend EPD's and economics to estimate an animal's overall impact on your bottom line.

The All Purpose \$Index (API) evaluates sires for use on the entire cow herd, bred to both 4th-calf heifers and mature cows, with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put onto feed and marketed for both quality grade and yield.

UNDERSTANDING ACCURACIES

BOLT EPD accuracies have experienced the most change, usually lowering numerically and especially for non- parent animals, however the reported accuracy will be more accurate.

Accuracy refers to the amount a reported EPD can possibly change as more data is added. EPD values with higher accuracy result in less possible change for the value over time. More accurate accuracies better represent the amount of possible change for each EPD.

Special Notice to Buyers & Agents

All bulls have been semen & morphology tested.

All animals offered for sale have been blooded, pesti, vibrio & 7 in 1.

1. Buying number system will be in operation at the sale. All prospective purchasers must register at Agents office.
2. GST will be applied on fall of hammer to purchase price.
3. NLIS - all cattle will have their NLIS buttons & will be transferred to successful purchaser number by selling agent at completion of sale.
4. Disclaimer - the vendors & agents do not give any warranty as to errors & omissions (if any) in these particulars which they believe to be accurate when compiled.
5. Public Liability - any person attending the sale does so at their own risk. All persons attending release the vendors from all actions or demands due to any loss, death, damage or injury occurring to any person attending the sale.
6. Indemnity - all persons attending the sale agree to indemnify the vendors from & against any liability, loss, damage, expense or claim, including to a third party during or after the sale.
7. In the interest of buyers & to prevent the occurrence of mistakes all instructions concerning the delivery & trucking of animals & insurance thereon must be given in writing to the agent. Such instructions are to be signed by the buyer or their representative.
8. It is a condition of sale that vendors warrant that all bulls are to be sold as fertile & capable of natural service within 6 months of date of sale.
9. The vendors shall refund to the purchaser the purchase price (excluding any costs or expense of the purchaser) upon the purchaser providing the vendor within 6 months of sale date
 - a) a report from a licensed veterinarian certifying that in their opinion the bull is infertile or incapable of natural service.
 - b) There is no such evidence that the bull has suffered any injury or illness subsequent to being sold to purchaser which could affect his breeding ability.
 - c) A statutory declaration from the purchaser warranting that in the opinion of the purchaser the facts stated in the veterinarians report are true & correct.
10. It is a condition of sale that vendors warrant that all females catalogued & sold as unjoined are fertile to natural service within 12 months of sale date.
11. The vendors shall refund to the purchaser the purchase price (excluding any costs or expense of the purchaser) upon the purchaser providing the vendor within 12 months of sale date
 - a) A report from a licensed veterinarian certifying that in their opinion there is no evidence that the female suffered any injury or illness subsequent to being sold to the purchaser which could have affected her breeding ability & there is no evidence that the female has been subjected to embryo transfer procedures.
 - b) A statutory declaration from the purchaser warranting that in the opinion of the purchaser the facts stated in the. Veterinarians report are true & correct.
